What I have here is a very hard to find soundtrack of the cult classic film **fright night**. This soundtrack disc marks the first release of the entire soundtrack including the pop songs and original score. This is a limited edition pressing for collectors only.. **This one is a special Chromium Edition with clear red case insert, super rare.** This is not a fake copy like the ones people are trying to

sell here on ebay, These soundtrack never came numbered so Please don't be fooled. **Don't miss your chance to own this great soundtrack. The picture shown is from my own collection the one for sale is brand new and sealed**

The sound quality on this new edition is far superior from the other's out there. The pictures don't do this great edition any justice you have to see it in person to enjoy the vibrant colors and chromium paper. I just love this edition and you will too

the CD is no longer available from the manufacture
